

TO ALL MEMBERS AND GUESTS OF NSWAFI

You are invited to attend an Education Night run by the NSW Association of Fire Investigators Inc., on the subject of:

External Facade Fires Mechanism of Fire Spread

With the recent phenomena of external wall fires, like the tragic fire in the Grenfell Tower and numerous other high rise fires around the world involving cladding, this is a timely presentation into what exactly is happening when a fire involves combustible cladding.

Superintendent Mark Reilly from Fire & Rescue NSW has been the Manager of the Fire Safety Unit. In this role Mark managed the provision of timely advice and input into major state infrastructure projects, high rise commercial and residential developments and major hazards facilities, to State Government Agencies, local Councils, industry and the public.

In his role in the Fire Safety Branch at FRNSW Mark has completed post graduate degrees in Public Sector Management, Applied Management and Emergency Management as well as a range of fire engineering and building compliance courses. Mark also has extensive operational experience as an incident commander in fighting bushfires in Australia and the USA where he was deployed as part of an IMT in 2009, working on a number of wildfire complex's in northern California.

Mark is a corporate member of the Institution of Fire Engineers (MIFireE) and was made a Companion of the Institution of Fire Engineers in 2012. For his service in Fire & Rescue NSW Mark was awarded the Australian Fire Service Medal (AFSM) in 2009.

VENUE: RFS Headquarters

ADDRESS: 15 Carter Street, Lidcombe

WHEN: Thursday, 4th October 2018 TIME: 18:30 hours
