Presentations & Refreshments

What is a portfolio?

A portfolio is a collection of a student’s best artwork. It helps the student evaluate his/her achievements and potential. It also gives the student an opportunity to “show off” his/her best pieces. Through discussion and presentation, the student is given the chance to open the window to his/her soul.

The Objective

The objective of the portfolio is to force students to maintain a high level of production, completing 3 to 5 portfolio pieces each semester. The students are expected to critique their work and demonstrate knowledge of the elements of art and the principles of design.

*Our mission at Destrehan High School
is to provide a nurturing community of
teaching and learning in which all
students will continuously improve to
become responsible contributing
members of society.*
