

Test color : The language of your color

Test color is the result of original research conducted and validated by a team of clinical psychologists, psychoanalysts and mathematicians.
Test color can generate over **50 million different answers, personalized according to every test.**

Tescolor was tested 4597575 times, thank you for your confidence.

Hello , please find here below your color choices for the day :

Today :

You are experiencing a phase of renewal or a new start in life. This shall bring you much pleasure and leads you to be open to others and full of hope.

Your way :

Life shall impose itself upon you in the form of a new project.
You will stress your great sensitivity and emotional truth within which, you shall know how to listen to yourself and stress the importance of what is really meaningful to you.

Your strongest point today :

Your main qualities are your charisma, your sense of fun and maybe even a kind of 'joie de vivre'. You are capable of leading groups of people and transmit to them your enthusiasm and energy.
You are currently driven by your feeling of new start in life and the energy it brings you, as well by your great energy capable of changing things.
You can also rely on your ability to lead, your natural charisma and your enthusiasm, as well as your natural energy, your desire to build and your ability to motivate others.

**Your best quality as of today is :
Your charisma and your sense of communication.**

Today, your communication skills seem to be invested at the level of the highest 15%.
You are currently experiencing happiness and 'joie de vivre', as well as you can prove to be charismatic and communicative.
At this time, your sense of communication is mainly supported by your feeling of new start in life and the energy it brings you, and also by your great energy capable of changing things.

**Your second best quality as of today is :
Your ability to take matters into your own hands.**

Today, your ability to be self determined seems to be above normal.
Your ongoing personal project is taking the major part of your time, as well as you have quite a bit of energy to move forward and build while being careful to take others into consideration.
Your ability to make things move forward is mainly supported by your capacity to lead others and make them react.
Elle pourrait par contre être tempérée par un sentiment de douceur d'ouverture aux autres.

A suggestion :

Don't forget to preserve time for yourself during which you may rest a little. This would be the occasion to move freely while respecting your privacy.
Enjoy peace and relaxation as well so you may be able to evaluate yourself.

The use of this test at lucrative or professional ends is a hacking.
