

## Herbal detox vaginal pearl

Medical device

### PACKAGE LEAFLET INFORMATION FOR USERS

Read the package leaflet carefully before you use the product.

#### Composition:

Cnidium Monnieri, Stemona Sessilifolia, Kochiae: Fructus Kochiae, Leonurus, Cardiaca, Rhizoma Smilacis Glabrae, Angelica Sinensis, Ligusticum Wallichii, Borneol

#### Characteristics:

The herbal detox vaginal pearl is a unique natural product (pearl diameter: 12 mm) manufactured according to a Chinese recipe verified by time.

It contains 7 well-known herbs and borneol resin in a sewing net.

It is designed to support the gynaecologic and urologic health of women.

Substances contained in herbs are proven to help suppress vaginal infections (vaginal mycosis) and bacterial vaginosis associated with discomfort (discharge, itching, burning, odour, pain during urination and intercourse) and urinary tract infections (contains herbs with antiseptic effect).

#### Effects:

: Removes unwanted vaginal products of metabolism

: Restores optimal vaginal environment (cleans and regenerates the vaginal mucous membrane)

: Helps resorption (absorption) of fluids and secretions

: Has a deodorant effect

: No side effects or TSS

#### Dosage:

1 pearl monthly, prophylactically.

2 pearls monthly in case of problems, with 1-day break between the applications.

If the problems persist, the applications of 2 pearls monthly are continued until full remission.

The pearl should not be inserted 7 days before expected menstruation, during it and 3 days after the end of menstruation.

Do not use if you believe that cracks or rhagades (painful cracks in the skin) appeared in the vaginal mucosa, or external genitalia.

Do not use during puerperium.

Sexual intercourse is not recommended during application.

Can be used with contraception.

It is suitable for pregnant women, nursing mothers and women with diabetes.

Not suitable for young girls before their first sexual intercourse.

#### Method of use:

**The herbal detox vaginal pearl is intended for insertion into the vagina.**

It does not change size and shape during the application.

It is easy to apply and well tolerated at all times; it will not limit you during sports, including bathing and swimming.

1. Take the pearl out of the package.

**2. Before using, release the cord on the projection of the pearl.**

3. Stretch the cord and make sure it is well attached to the pearl.

4. Insert the pearl and your finger (into the depth reached with your stretched index finger) backwards – see the drawing.

If you still feel the pearl (e.g. when sitting, walking), insert it again a little deeper. The cord must remain outside.

5. Leave it to work for 72 hours.

6. After 72 hours have elapsed, remove the pearl by pulling on the string. Discard in the rubbish.

**Note:**

To remove dryness and tension during the first hours of application, it is recommended to moisten the pearl for 2 minutes in water (boiled, lukewarm).

**Caution:**

Herbal detox vaginal pearls are produced in a clean, dry environment. They are provided with a covering mesh and thin cord of sufficient length. The product is not a hygienic tool. Do not use if allergic to any of the herbal ingredients. The product does not replace pharmacological treatment and medical care. Do not use after the expiry date.

**Special precautions:**

In some cases there may be a light reaction such as burning, itching and rarely pain shortly after the application. It is recommended to interrupt the application and wait until the reaction subsides. Usually within 72 hours, surface epithelium sequesters (dead surface layer of the lining of vagina) and bacteria, including mucus, are discharged in the form of friable, curd-like lumps and mass resembling a drying egg white or curd with brown districts. These are typical symptoms of the cleansing process that can last for several days (usually after the second pearl). In rare cases, itching and burning may reappear following the application. We recommend using a vaginal douche and follow the Dosage paragraph. In case of a different reaction, remove the pearl and confidently contact the customer advice centre.

**Storage:**

Store in the original package at room temperature and out of reach and sight of children.

**Package:**

2 herbal detox vaginal pearls

**Usage time:**

2 years from date of manufacture

**Manufacturer:**

Miroslav Skalický – medicaHERBA, Jana Palacha 1552, 530 02 Pardubice

**Distributor:**

Herbal Care Ltd., 71-75 Shelton Street, Covent Garden, London, WC2H 9JQ,
