

With Tea Tree, Niaouli and Rosemary Oil this antifungal foot soak was designed to specifically target bacterial causing foot odour. This super additive not only cleanses the feet and nails but is a natural antiseptic that fights fungal and bacterial infections of the skin and feet. The Elim Spa Additive increases blood circulation and eases puffiness and swelling. Clear salt crystals and Bicarb of Soda acts as a carrier and a neutralizer for the feet.

Elim Spa Additive

WHAT MAKES ME DIFFERENT?

Sodium Sesquicarbonate is used instead of normal salt and has a PH neutralizing effect. It is packed with essential oils to kill bacteria and is not simply a softening agent for the water bath but rather a defense system against odour causing bacteria and foot fungi.

HOW DO YOU APPLY ME?

Dissolve 5ml of Spa Additive in a pedi-bath. Add enough warm water. Stir gently until the powder is completely dissolved. Soak and dry.

WHAT ARE MY ACTIVES AND BENEFITS?

- **Sodium Sesquicarbonate** is a powerful salt crystal and Bicarb of Soda base combination to soften while neutralizing the skin.
- **Tea Tree Oil** is a powerful antibacterial agent, killing odour causing bacteria.
- **Rosemary and Geranium Oil** are both defenders against stress and anxiety while calming tired feet.
- **Citronelle Oil** is an all-in-one antibacterial, antiseptic, antispasmodic, anti-inflammatory and fungicidal.
- Improves symptoms of rheumatism, arthritis, gout and poor circulation. Increases blood circulation and eases puffiness and swelling. Helps with symptoms of dermatitis and eczema.

HOW MANY TREATMENTS DO I GET FROM EACH PRODUCT?
