

Devoran Park - Additional works to improve access and usability

Monday 26th October to Friday 6th November 2015

The park will still be available during the works, as the areas being worked on will be fenced off.

If anyone has any questions regarding these works please contact the Parish Council Office on 01872 863333 or call into the office during the week.

This work has been funded by Cory Environmental and Feock Parish Council. These works will take approximately 2 weeks and will provide:-

- 2 new bound gravel pathways from each of the pedestrian gateways which it is hoped will improve access to buggies and wheelchairs.
- 5 additional benches for seating, made from recycled materials, with fruit trees to give some shade
- An additional picnic bench
- Turf and grass mats at each side of the existing slide to help shore up and tidy up the bank
- Stepping logs up the side of the existing slide for children to play on
