

Hold the tape measure loosely, so that you can get two fingers underneath. If your dog measurement is an odd number round it down one size but your final selection should be based on your torso size. Scroll down to read more.

Length: Measure from your dog's neck to the base of their tail.

Torso: Find the ribcage and wrap the tape measure around the widest part.

Note: Please always dress your dog appropriately for the weather and do not let your pup overheat.

Wall Street and Vanderbilt Ave
