

TikTok Choir Instructions

Hello all! This is Artha, I want to say thank you so much for participating in this video project, I am so excited to see how it turns out! We will be singing This is Amazing Grace by Phil Wickham. **You have the option to record a video of you and your family singing along to the final chorus of the song AND/OR record a 15 second video of you and your family dancing to any part of the whole song.** You can do one or both of these.

Below are some instructions on how you should shoot your video for either dancing or singing and how to submit your videos.

Dancing:

There is a track titled “**TikTok Choir Dancing Track This Is Amazing Grace**”, it’s about 4.5 minutes long. This is just me singing and playing piano as a reference track for everyone to stay together. **Pick any 15 second section of the song and record you and your family dancing to that part of the song. You will need to have the track playing out loud in the video so I can know where you are in the song.** I will cut out the audio later. It might also help if you tell me where in the song you started (how many minutes or seconds into the track). Have fun with it! If you want to do more than one video with different parts of the song, even better!

Singing:

DO NOT WORRY! The band and I will be playing and singing this section with everyone and I am going to edit the videos of everyone singing together so we are singing as one, no one will be singled out! There is a track titled “**TikTok Choir Singing Track**” that is about a minute long. This is just me playing and singing the final chorus of the song so we will all be together in the video. This is all you need to record. You will hear me singing the last line of the bridge right before the chorus “Worthy is the Lamb who was slain, worthy, worthy, worthy Oh...” And then I go straight into the chorus, this is just to give you a few seconds to get ready and know when to come in. **Come in on “This is Amazing Grace...” And sing through the whole chorus. You will need to record this with headphones on with the track of me singing playing in your ears while you record.** This may get tricky with whole families but if one person is listening to it in headphones and can lead the others in it, that will work best. Have fun with it!

Submitting your video:

There is a Google Drive folder titled “Live Oak Church TikTok Choir Videos”. Once you are finished you will submit your videos into this folder so that I can have access to them to edit everything together. There is a link to this folder as well as the audio tracks to record with and lyrics to the chorus attached to this email.
