

If we
work together
we can make
as much noise
as the big four

52 per cent (recent statistics show an increase to 54%) of UK cancer deaths are from the less common cancers.

Despite this, the less common cancers remain severely under represented and under funded across all areas, including policy, services and research.

Cancer52 is an alliance of more than 80 organisations working to address this inequality and improve outcomes for patients with these highly challenging diseases.
