

MEMBERS BULLETIN

28th July 2020

Dear All,

Round up e-bulletin

Hope you are all well. This e-bulletin gives some key information about [shielding](#), as well as details for the next [NHS Monthly Cancer Charity Webinar](#), along with information on other work taking place.

New shielding advice for people on the Shielded People List in Leicester, Luton, Blackburn and Darwen

New advice has been issued by DHSC for people on the Shielded People List in areas above as they should not follow the national pausing of shielding that will take place on 1 August. Please see the [information here](#).

NHS Monthly Cancer Charity Webinar

The [Cancer Charity Forum](#) meeting is next week on **Wednesday 5th August, 14:00-15:00**. It is likely that many of you are already aware but just in case, [dial-in details are here](#).

20 for 20 Fundraising Campaign

The **20 for 20 fundraising campaign** is certainly starting to create a buzz! Due to launch on 20th September 2020, the collective have started to get the ball rolling ; the logo is being finalised, applications are currently being sent out to secure corporate sponsorship and the website is also starting to be created.

18 causes have united to be a part of this challenge as one powerful voice, and there is still time for more charities to join. If you're interested please contact the campaign's chair [Kerry Reeves-Kneip at Sarcoma UK](#) and she will be able to give you more information about the 20 for 20 challenge.

With thanks to Sarcoma UK for leading on this initiative.

COVID and my cancer care : Patient Survey

Prior to the Cancer52 Patient Survey, several members had already surveyed or were in the process of surveying their patient population on the impact of COVID on cancer care. The response and outcomes of the Cancer52 survey seem to resonate across all groups, with a few specific areas of differences.

If you have further information and / or survey results you are willing to share for comparison and analysis to help further inform current conclusions and recommendations, we would love [to hear from you](#).

EBI : Evidence Based Interventions

The [Evidence Based Interventions](#) programme is extending from its original 17 interventions into others, some of which may be specific to rare and less common cancers.

If you are aware of any of these would be good to hear more, and our thanks to Nikie Jervis of NCUK for drawing our attention to them. More info on the [EBI programme here](#).

Best wishes,

Jane Lyons
CEO
