Contemporary Kantian philosophy is a fusion of the classical 18<sup>th</sup> century philosophy of Immanuel Kant and the methods of contemporary philosophy, within an expressly cosmopolitan framework.

The range and scope of the problems and topics addressed by contemporary Kantian philosophy are as broad and as deep as the rational human condition itself.

**CSKP** publishes invited articles on Kant's philosophy and in contemporary Kantian philosophy, that are normally (but neither exclusively nor necessarily) based on presentations at its annual workshops.

The basic aim of **CSKP** is to disseminate first-rate, original—and especially challenging, creative, and unorthodox—research in Kant's philosophy and in contemporary Kantian philosophy, that is freely available to anyone, anywhere, worldwide.

**CSKP** is online and universal free-access.

**CSKP's** Editor is:
