

2019 – Florida's I³ Transportation Showcase

Integrated, Intelligent, & Innovative Mobility
Sharing Ideas for Safer, Smarter Communities

The Florida Section of the Institute of Transportation Engineers, the Intelligent Transportation Society of Florida, and the Florida Section of the International Municipal Signal Association are proudly joining together for the **Florida I³ Transportation Showcase**. Don't miss the opportunity to attend this exciting conference. This transportation showcase will take place from **June 23 – 26, 2019 at the Renaissance Orlando at SeaWorld**. This meeting will combine topics of interest for members of each organization. Registration information will be available soon at www.i3-florida.org.

CALL FOR SPEAKERS

Attention all engineers, planners, technicians, manufacturers, and vendors. You are invited to submit your operational improvements, creative projects, or unique experiences on any of the following topics:

- Smart Cities
- TSM&O
- Integrated Corridor Management
- Freeway and Arterial Operations
- Tolling Systems
- Safety and Security
- Connected and Automated Vehicles
- New ITS Technology and Deployments
- Performance Measures
- Incident Management
- Mobility and Data
- Asset Management

Please send a short summary to Elizabeth Birriel at vicepresident@floridasectionite.org, Pete Costello at pfc@iteris.com, and Joe Molinaro at jmolinaro@albeckgerken.com by April 05, 2019. Product or service sales pitches will not be accepted. This is an opportunity to share important and innovative information with the transportation industry.
