QURAN AND 2019 CAN WE LEARN WHAT WILL HAPPEN IN FUTURE FROM QURAN?

Every single letter in the Arabic alphabet has a numerical value. These numerical values are called “Gematria” and they are pre-Islamic, they are at least 6000 years old. But it’s interesting that the holy Quran, which was revealed in the 7th century has these gematria systems. The one who says “It is not allowed in Islam to make predictions or such things” has no knowledge and the one who calls “Gematria” as “Magic” also does not have knowledge. Allah says in the holy Quran “We have collected everything in a clear book!”, which means all the knowledge of future events including the judgement day are also encoded in the holy Quran.

The one who says “Quran is a clear book with no codes” also does not have any knowledge about what Quran is. Every single verse of Quran contains many secrets. Some of them can be understood by human mind whereas some of them can not be understood. It is false thinking that “I understand this meaning from this verse of Quran, and that’s the only meaning of the verse!”. No way! Quran is a mysterious book which has many miracles. For instance, the 16th chapter of Quran is “The bee”, and it was discovered in the 20th Century that bee has 16 chromosomes. Quran is therefore a miraculous book which contains many codes and mysteries. If Quran didn’t have secret codes and if it was a clear book, certain chapters wouldn’t start with letters that make no sense such as “Alif, Lam, Meem”, all these letters are hidden codes which human mind can not perceive their meanings.

WHAT IS GEMATRIA?

Every letter in the Arabic alphabet has a numerical value, and these numerical values of letters of a sentence are added together and a date related to that sentence is obtained as a result. The date we obtain is the date of the event the sentence describes!

RULES TO BE FOLLOWED WHILE APPLYING GEMATRIA

1. Absolutely all the letters having a “double sign” on it must be calculated twice.
2. The dates we get must be Gregorian if the expression or the sentence we are calculating is Gregorian related. For instance, the date of the judgement day and the date Jesus will return to Earth are Gregorian related, since the gregorian calendar counts beginning from the birth of Jesus.

The numerical values of the 28 Arabic letters are shown below:

ا (1) Alif

ب (2) ba

ج (3) gym

د (4) dull

هـ (5) ha

و (6) wuw

ز (7) za

ح (8) haa

ط (9) ta

ي (10) ya

ك (20) kaf

FINDING WHEN JESUS WILL RETURN TO EARTH WITH GEMATRIA

Verse number 19:33 in the holy Quran is completely a saying of Jesus Christ.
In that verse, Jesus says the following:

The Quran Code

“And the peace be upon me on the day I was born, the day I shall die and the day I shall be raised up alive!”. Jesus talks about his coming back to life in this verse.

Now, Let's see the Original Arabic version of this verse and calculate its gematria:

وَالسَّلَامُ عَلَيَّ يَوْمٍ وُلِدْتُ وَيَوْمَ أَمُوتُ وَيَوْمَ أُبْعَثُ حَيًّا

$$6+1+30+60+60+30+1+40+70+30+10+10+10+6+40+6+30+4+400+6+10+6+40+1+40+6+400+6+10+6+40+1+2+70+500+8+10+10+1= 2017$$

We obtained 2017! It means Jesus will return to Earth in 2017.

WHEN IS THE JUDGEMENT DAY?

In the whole Quran, the expression “When the trumpet is blown” takes place only in two verses. These are verse number 23:101 and 69:13 respectively. Now let's calculate the gematria of this expression:

فَإِذَا نُفِخَ فِي الصُّورِ

$$80+1+700+1+50+80+600+80+10+1+30+90+90+6+200= 2019$$

We obtained 2019 this time! This means that Jesus will descend to Earth from heavens in **2017**, and the Earth will be destroyed in **2019**. And then, all the dead species who lived on Earth will be resurrected and they will be judged for their eternal life, and then some humans will go to Hell and some of them will go to Paradise and stay there forever.

“Verily, He (Jesus) is a sign for the hour, therefore do not doubt about him and Obey me since this is the straight path!” (Quran, 43:61)

Another sign stating the judgement day will be in 2019 (1441 AD) is that in the verse no 14:41 of Quran, prophet Abraham says the following:

“THE DAY THE ACCOUNT IS ESTABLISHED, forgive me, my parents and all the believers!”.

The Quran Code

Also the only verse talking about the coming time of Gog and Magog (the two monsters or a different human race) is verse number 21:96. If we multiply 21 by 96, we get **2016**, which means Gog and Magog will be on Earth in 2016.

QURAN AND ITS HIDDEN CODES

Quran is the most right one. But everyone cannot understand “the most right one”. Being unable to understand is not a sin. The real sin is trying not to understand it. In this book, I have found many secret codes such as the chromosome numbers of animals, television, atmosphere in Quran and even those who don’t know Arabic can check and understand some of these secret codes from the Quran. Also, I got the knowledge for future and what events are waiting for us in future, I have found all from the code of Quran. It is really fantastic, it is really amazing!

THE CODE OF QUR’AN AND ITS SCIENTIFIC MIRACLES:

(Please keep in mind that “Ayat” means “A verse from the Quran” and “Soora” means “A chapter from the Quran”. There are 114 chapters at total in the holly Quran, each consisting of many verses.)

Some words are repeated at the same amount with their contrast in The Holly Qur’an. For instance:

Angel and Devil 88 times.

Paradise and Hell 77 times.

World and Life After 115 times.

Summer-hot and Winter-cold 5 times.

Plant and tree 26 times.

Punishment 117 and Forgiveness 117x2 times,

Bad people 3 and Good people 3x2 times,

Belief 25 and swear 25 times etc...

Repeated in the Holy Qur’an.

(You can easily count words from the index of Qur’an)

GENERAL MIRACLES OF QURAN

TELEVISION:

The letters forming the word “television” joins together in Naml soora, ayat 17, from right to left.

تلو سن

In Arabic: ta-lum-Aleaf-Wuv-seen-noon

COUPLES IN CREATION:

The Quran Code

20th century Science prooved by Paul Dirac, an English Scientist that it is not only beings, male and female, couples but that everything, every matter inside the universe had been created as couples. Stars, iron, board, gold, silver, copper, nickel etc...everything! Paul Dirac won the Nobel Prize with his this theory, because by electron microscopes, a matter sort called “anti-matter” was discovered. The anti-matter carries inverse properties with matter. For instance, as reverse of matter, the electrons of antimatter are positively- charged and the protons of it are negatively- charged. This theory of Paul Dirac which was surpriseful for Scientists and many people was known in 20th century, and was completely prooved in 1933. But the Holly Qur’an gave that information 13 centuries ago, again as a very big miracle in the following ayat of the soora of Yasin:

“Glorifies is He Who has created all the pairs of that which the Earth produces, as well as of their own (human) kind (male and female), and of that which they know not.”. (Yasin-36)

Even the plants have male and female sexual organs. Even the fruits have. Botanic Sciences discovered that there is sexual distinction among plants in 1900’s, but Qur’an is giving that information 13 centuries ago, in the following ayat:

“And (my God), has made Earth for you like a bed, and has opened roads for you therein. He has sent down water (rain) from the sky. And We have brought forth with it from various kinds of vegetation!”. (Ta-Ha, 53)

“TAYYIP ERDOĞAN’S ELECTION IN TURKEY” IN QUR’AN:

Not only scientific miracles and discoveries, but there are other miracles we observe about some political issues in Qur’an. I was very surprised when I realized one of these. Tayyip Erdoğan was elected as the president of Turkey in the year 2003. Since he was elected as a president, the amount of people who define themselves as “religious Muslims” in Turkey became 93.2%, according to public surveys done afterwards, because Tayyip’s party A.K.P. was a religious party, and its advertisements done by its members for elections had elected Turkish people so much.

In the ayat no 14:24, the letters forming the words “Tayyip” and “Turkey” join together separately. And the ayat no 1424 is the year equivalent to the year 2003 in the Gregorian Calendar, the year of Tayyip Erdoğan’s election as a president. Furthermore, there is no any other ayat in Qur’an in which both the word “Turkey” and the word “Tayyip” are formed together. While thought Mathematically, both the ayat number’s being 1424(2003) and the usage of the words “Tayyip” and “Turkey” in the ayat cannot be a chance.

The Arabic version of the ayat no 14:24 is the following:

أَلَمْ يَتْرِكْ يَافُضْ رَبُّ الشَّمْسِ لَأَكْلِمَ طَيْبَ نَكْشِ جَرَّةٍ طَيْبَ أَصْلِهَا
TAYYIP TAYYIP TURKEY

The Quran Code

The word “Turkey” is called “Turkiya” in Arabic and Turkish. It is almost the same in all languages. In Arabic, it is written with five letters: Ta-Ra-kaf-ya.

QURAN AND BIOLOGY

CHROMOSOMES IN QUR’AN:

1. Has there not been over Man a long period of Time, when he was nothing - (not even) mentioned?

2. Verily We created Man from a drop of mingled sperm, in order to try him: So We gave him (the gifts), of Hearing and Sight.

The letters recited in the verses are the followings (we shouldn’t write a letter more than once!):

The chromosome number of a human is 46. 23 of them come from male, and other 23 comes from female. The difference between Man and Woman is because of the difference in the 23rd chromosome pair. Both the words “man” and “woman” are repeated 23 times separately in Qur’an. Before 20th century microbiology, there was no possibility for people to know chromosome number of animals and Men.

46-Chromosomes miracle in Qur’an:

In the soora najm again, an important sign of Men creation has been given as a miracle. The 45th and 46th ayats of the soora are the following:

“We created male and female...” (najm-45)

“From a less amount of poor water when spilled!” (najm-46)

The words “male and female” in ayat 45 refers to “man and woman”, because the previous ayats were talking about Human related to that ayat. 46th ayat talks about creation of man and woman from a liquid. Human is created from a liquid which is sperm droplet in 23 steps, and formed by 46 chromosomes. The number of the ayat talking about this creation is also 46. This is again another miracle of Qur’an.

Remember that all these ayat and soora numbers are the same as the first Qur’an in museum in Mecca which was written in the time of Prophet Muhammad.

The chromosome numbers of some animals in Qur’an:

The chromosome numbers of some animals are given in the Holly Qur’an. For instance, the sooras (chapters) “Jumah” and “Lokman” are 31st and 62nd sooras of Qur’an respectively, and they are the only two sooras in the whole Qur’an which contain the word “donkey” but no any other animal. This is another surpriseful miracle of the Holly Qur’an, because donkey has 31 double and so 62 single chromosomes.

The Quran Code

Qur'an gives some secrets about the chromosome number of very important animals. For instance, if there was no bee on Earth, life would not be possible on Earth for us. Because sunlight cannot be taken directly as a food by people and animals. It is converted into glucose sugar by plants for us, and plants are polluted perfectly only by bee. With only wind pollination, it is not possible to live, because it takes place seldomly. So, bee is the most important being among animals. Famous scientist Albert Einstein said: "The day bee disappears from the Earth will be the last day of the Earth!" The chromosome number of this holly being, bee, has been given in the holly Qur'an. Nahl means "honey bee" in Arabic, and there is a soora called "Nahl" in the holly Qur'an. It is the 16th soora of Qur'an. This is a very big miracle of Qur'an, because 20th century modern Microbiology discovered by microscopic experiments that male bee has 16 Haploid and female bee has 16 diploid chromosomes. The Holly Qur'an gave that information with its chapter number 13 centuries before Microbiology.

AMAZING SECRET MIRACLE OF QURAN: THE CHROMOSOME NUMBERS OF HUMAN, LION AND LOCUST ARE GIVEN SECRETLY IN QURAN:

There is a chapter called "Human" in Quran. It is the 76th chapter of the holly Quran. In this chapter, the word "human" takes place only in the first and second verses of the chapter. The verses in Arabic are the followings:

لَمْ يَكُنْ شَيْئًا مَّذْكُورًا
إِنَّا خَلَقْنَا الْإِنْسَانَ مِنْ نُطْفَةٍ أَمْشَاجٍ نَبْتَلِيهِ فَجَعَلْنَاهُ سَمِيعًا بَصِيرًا

The meanings of these two verses are the followings:
