

AERIAL DRONE (UAV) RIGHT-OF-WAY INSPECTIONS

Explore has added an innovative new way to inspect right-of-ways, view crossings and provide operators with details they can see via the use of aerial drones to produce high resolution photos and video from set elevations. Deliverables include:

- ✗ Completion of the *ROW Inspection Form*.
- ✗ HD Video and Pictures of the ROW, including all findings contrary to the norm
 - Construction Activity (Third Party Activity)
 - Leak Detection
 - Seismic Activity
 - Soil/Hill Slides
 - Loss of cover
 - Staining
 - Vegetation Anomalies
 - Objects or materials which may indicate future issues
