

Kelsey Hoppe
CEO

Safeguarding is a key priority for any organisation working in international development, humanitarian aid or the wider social sector. It's a complex area with high expectations from donors, regulators and the public.

I am proud that Safer Edge has developed a range of services in this area and is already helping a number of organisations with their safeguarding requirements.

Good safeguarding measures will help you deliver your organisation's critical work. I hope you find this brief summary of our services helpful and we look forward to discussing your requirements.

We offer 3 levels of services on Safeguarding...

Strategic change across your organisation

1

Organisational Strategy

Focussed areas of Safeguarding practice

2

Changing Behaviours

Proactive Risk Management

Reporting & Response

Or use our range of skills for individual objectives.

3

Business Change

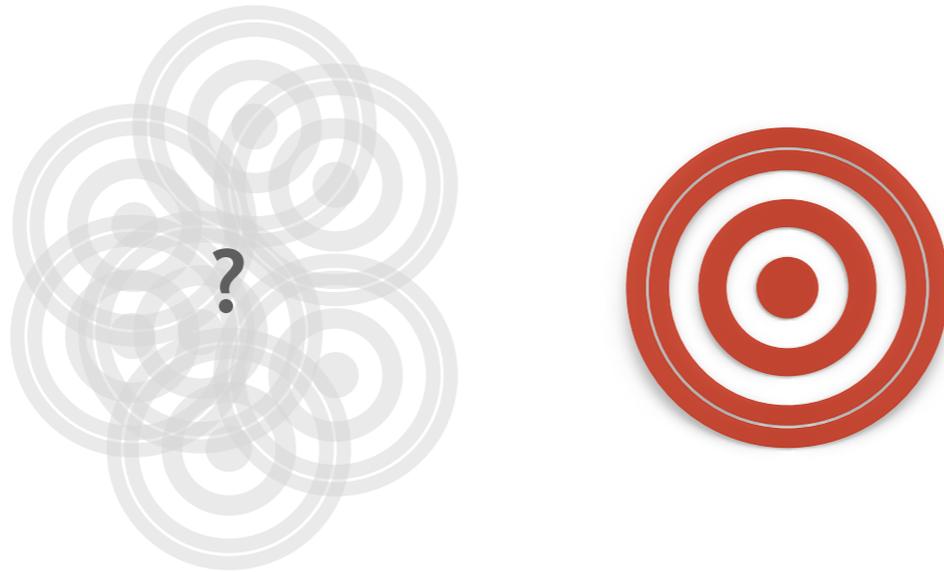

Training

Specialist Advice

Campaigns

Audit & Review

..and we help you pick and choose the services that meet your requirements

We can help you develop a bespoke safeguarding strategy designed for your organisation and its work with partners.

We help leadership teams set organisation-wide safeguarding objectives. We ensure you understand what risks and gaps you are carrying and how to address them.

Our approach includes mapping against DfID's 6 due diligence requirements for safeguarding:

Policy

HR

Whistle -
blowing

Risk
Management

Code of
Conduct

Governance

But strategy is nothing without delivery and this package includes a bespoke delivery plan taking into account your organisational priorities, structures and resources.

- Organisational definition of safeguarding in line with donor/regulatory expectations and organisational values
- Identification and prioritisation of your safeguarding risks
- Identification and prioritisation of current gaps/vulnerabilities
- Integration of safeguarding work with your organisation's other policies
- Design of safeguarding MI reporting and integration with existing risk reporting processes
- Design of accountability, oversight and review mechanisms
- Design of delivery structure, objectives, delivery methods, roadmap and milestones for the strategy
- Budget and resource requirements for delivery

“We need to see more being done for those staff who work on safeguarding in terms of regular support, access to training and supervision...”

Penny Mordaunt Secretary of State for DfID

We understand that every organisation is different.

Our experts are on hand to help you with your individual safeguarding requirements. Our hand-picked consultants have substantial experience in their areas of expertise and we specialise in helping organisations involved in humanitarian, development and charity work.
