The Center in the Center

Spend an evening learning about what your Milwaukee Archdiocese is up to in an area it largely abandoned in the 1990's-Milwaukee's 53206 Amani Neighborhood. Hear about the innovative approach we are taking to live the Gospel and accompany our brothers and sisters as we all become empowered to reach our God given potential. By shining a light on the many ministries already in place, and making them both visible and accessible to those who need them the most, our new "Center in the Center" community hub will act as a place of faith, hope and opportunity for all!
