

Dairy Farms Energy Savings Report Card

Five Year Energy Savings At A Glance

Utilizing Public Purpose Programs, PG&E Account Managers have partnered with dairies to develop energy savings projects.

Energy savings projects are designed to provide incentives for dairies to become more energy efficient. These projects will save both energy and money for dairies.

Five Year Energy Savings Projects

\$6,492,242

Amount of incentives and rebates paid to dairies in the last five years

39,761

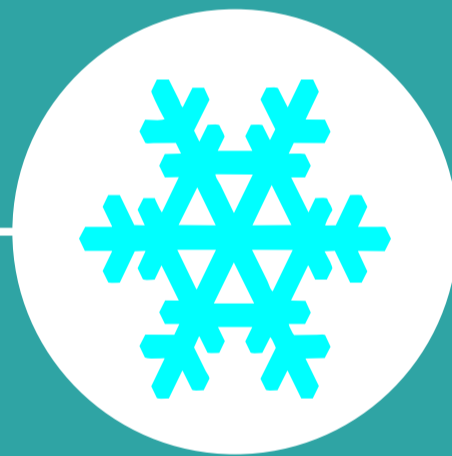

Metric Tons of Carbon Dioxide Equivalent GHG Saved

56,576,750
