About Us

Freshening Industries, leading manufacturer of premium grade individually packed wet wipes. The company traces its relatively young beginnings to 1994, when we pioneered the simple but novel concept of manufacturing wet wipes.

With a knowing finger on the pulse of the increasingly sophisticated tastes and needs of the consumer, we sparked the trend of accessible and convenient hygiene wipes. Many years later and with over 5,000 foodservice establishments to our name, we are now the leading wet wipes producer as well as a key provider of hygiene and foodservice products in the region.

Today, Freshening products can be found in over 37 countries. We count, among many others, major airlines, global food chains, hotel conglomerates, international cruise liners and prominent hospital groups as loyal customers - a testament to the versatility and quality of our products.

Together, we welcome you to join
Freshening The World – *Be Clean, Be Happy.*

Foodservice, Hospitality & Hygiene Products

Leveraging on our vast local and international network for the wet wipes business, we are uniquely positioned to optimise our existing delivery and inventory systems by forming strategic business alliances. We believe that we offer a mutually rewarding proposition – access and acumen – to prospective principals who stand to gain from our established business framework.

Alpak was then developed to cater as a one-stop disposable packaging provider. Our products features a line of brands under BlueSky, Eunice, Hagen’s and Ozuki.

Established global brands such as Kimberly-Clark Professional* and MS Venture are among our principals.

Wet Wipes Production

Freshening now has top-notch wet wipes production facilities in 3 countries; Singapore, Indonesia and China. This is the fruit of our relentless effort in establishing Freshening Quality Systems (FQS) in wet wipes production over the years.

Committed to providing products of the highest quality, we invest heavily in state-of-the-art machinery, impose stringent international hygiene control in the manufacturing process, and do not compromise on the quality of raw materials and packaging.

We will continue to expand strategically by looking for more domestic manufacturing sites within South East Asia and beyond.

Quality Management

Our signature wet wipes are produced in a sophisticated dust free 100K Clean Room, within a HACCP, ISO 9001 and GMP certified manufacturing facility. Besides that, Freshening is also Business Continuity Management certified by SGS to provide reassurance to our customers and stakeholders that our operations are able to respond effectively in face of the out of the ordinary situations. Our products are insured under the \$2M product liability insurance to protect your interest and reputation. Freshening and the insurance company will be there to handle the problem hence leaving you with a peace of mind.

Quality & Safety Assurance

Quality Control (QC) are set in place to ensure all Freshening products meet if not surpass the quality requirements set. Regular products tests are also carried out by local and foreign laboratories of good reput to ensure product safety and compliance to international standards.

Research & Development

Research and development forms a major part of our business operations. We place paramount emphasis on this matter of crucial importance to ensure all our operations and products are of sustainable and positive profiles. We also work with many experts worldwide to develop new products, new packaging and new methods as well as to assess and enhance the profiles of our existing products on a continuous basis. These partners include printers, manufacturers, laboratories, technology companies, ingredient and formulation specialists, raw material and machinery suppliers.

8 Simple Steps to Customisation

Work with us to market your brand with our full range of disposable packaging products. We listen to your needs and provide customised solutions to suit your businesses. More importantly, we back you up with packaging design and product development through our in-house design team.

Our design team is ready to offer professional consultation on turning great ideas into actual products. We ensure outcome of printed materials and colours are as close as possible to visuals through experiences gained over the years.

Personal Care Wipes

Personal hygiene is crucial and can significantly impact your daily life. Our range of personal care wipes features a line of brands under Zappy, HospiCare, FrG and Moisystem. These products are designed and developed to protect you and your family through products manufactured based on global hygiene standards. Over the years, Freshening has expanded its selection of products to the development of pet wipes under Woosh. Through research and development, more products will be introduced to meet the needs of users from all walks of life.

Launched in 2005 as "Zappy Boy" brand, it was later changed to "Zappy" to reflect its growing popularity "zapping" the lives of innumerable users from all walks of life. Zappy products are designed to be handy and effective. Zappy has subsequently emerged as a household name in Singapore, where Zappy products are on the shelves of reputable supermarkets, pharmacies and department stores on the island.

Regular lab tests are carried out by local and foreign laboratories of good reput to ensure all Zappy products are consistently compliant with international standards. Quality control measures are in place to ensure continual product improvement. Freshening will continue to introduce more products that keep in line with Zappy's product principle.

HospiCare - Healthcare

Freshening unveiled this product brand at the height of the SARS outbreak in 2003 when we supplied antiseptic and IPA wipes to major hospitals, nursing homes and other consumer sectors. We have since added more products to the HospiCare range, notably HospiCare Adult Body Wipes in 2008. These wipes are specially formulated for the healthcare industry and widely used in most general hospitals and healthcare groups in Singapore. The successful introduction of quality IPA wipes led to a number of global conglomerates incorporating them into their preventive measures against H1N1; a testament of our product quality. As we move forward, our research and development team continues to develop new innovative products of the highest quality to meet the needs of the local and global healthcare market.

Disposable Aprons

Disposable aprons are an absolute necessity in the foodservice industry. These aprons are versatile, light in weight and an economical choice. Available in various materials ranging from plastic to non-woven fabric. Plastic aprons are a convenient option for foodservice users during cleaning and preparation. Alternatively, non-woven fabric aprons are gaining popularity among restaurateurs as a choice of garment for their customers to protect against stains such as chilli crab sauce or dark sauce splattering onto the clothing.

MS Venture Microwavable Plastic Containers

Founded in 1976, MS Venture has grown tremendously over the decades and today, a leading regional supplier of disposable plastic containers. Offering over 150 SKUs of polypropylene containers to choose from that are designed to suit all types of operation. MS Venture plastic containers are suitable for takeaway, bulk storage, storing in chiller and many other uses. The containers have gone through numerous testing to achieve microwave safe, fluid leak-proof, light weighted, stackable and sturdy properties. With continuous research and development, the product range is set to expand further.

Cups

From practical to purposeful, disposable cups come in a various types of materials, styles, sizes and colours. For hot drinks, we offer paper cups that withstand high temperature and are easy to grip. Whereas for cold drinks, we provide plastic cups that offers great functionality and are light in weight. These disposable cups are perfect to promote your own logo and message on-the-go. Complement the cups with accessories such as straws and coasters.

Film, Foil & Parchment

Film, foil and parchment paper are absolute necessary in any foodservice establishment. Film is used for food wrapping, ensuring freshness and to seal in the flavor. While aluminium foil is designed to take on the toughest kitchen jobs. Parchment paper are more often used in baking for its non-stick properties.
