Transport

Please visit www.nottingham.ac.uk/about/visitorinformation for travel information.

Bus

A number of bus services run from the city centre to the Jubilee campus. Visit www.travelineeastmidlands.co.uk to create a personalised journey plan and to get maps and more detailed directions. Some bus operators do not give change so make sure you have the correct fare.

There is also a 24 hour Skylink bus service from East Midlands Airport to Nottingham. A further short taxi journey or bus trip would take you to the Jubilee campus. Alternatively, the Skylink does stop at our University Park campus. For details on how to travel from University Park to the Jubilee campus, please visit

<https://www.nottingham.ac.uk/sustainability/transport/travellingbetweencampuses/travelling-between-campuses.aspx>

Wifi access

eduroam

Wireless services for visitors from other participating institutions

To connect to the eduroam service whilst at the University of Nottingham, please ensure that your device has been set up correctly before your visit. Your local Campus IT support team should be able to assist with the required configuration.

- You may need to enter your username and password in order to connect to the eduroam service if these credentials are not already cached on your device.
- The user credentials supplied by your device must identify your home institution e.g. xyz@abc.ac.uk would identify user xyz from university abc.
- If you encounter problems, please contact your home institution for assistance.

If your institution does not participate in eduroam, then you can use the UoN-guest wireless service (see below).

Whilst at a participating site, you are bound by our [Code of Practice](#) and the acceptable use policy of the site you are visiting. Failure to adhere could result in disciplinary procedures.

The eduroam (UK) policy can be found on the JANET website.

Guest wireless

The University of Nottingham provides short term visitors with free access to the UoN-guest wireless network.

How to connect

1. Make sure the wireless network adapter is activated on your device.
2. If you are in range, your device should automatically connect to the UoN-guest network. If not, find 'UoN-guest' in the list of wireless connections available and select this network. If it is not listed - please move the device until you are in range.
3. Open your web browser, then browse to any unsecure website such as www.bbc.co.uk.
4. The UoN-guest wireless login page will appear.
5. If you have already created an account, click the link to log in, otherwise follow the on-screen instructions to register for an account.
6. You will be sent a confirmation email to the email address you registered with. You have ten minutes to read and confirm your access. If you do not validate your account, then it will be deleted and your device will be disconnected.

7. Once you have confirmed your account, disconnect and reconnect, logging in with your account details. You can log in and use the service for seven days before you will need to re-register.

UoN-guest is an open network and does not provide encryption for traffic transmitted or received by connected devices. Security for connections made using the UoN-guest network remains the responsibility of the user and the service is used at your own risk. Please do not enter passwords online when using this network.

If you do not validate your account within the 10 minutes grace period you will be disconnected and need to re-register.
