# Welcome to the 2019 Arts in Education Job Fair!

This event is proudly presented by the Community-Word Project, the New York City Arts in Education Roundtable, and the Borough of Manhattan Community College in an effort to further support and professionalize the Arts Education field across the city.

In this digital pdf, you will find the floorplan for the fair and a breakdown of the participating organizations, including the art forms they work in and whom they are looking to hire. Interested individuals will have the opportunity to learn about organizations and speak with their representatives at fair tables. This complete breakdown will not be available in hard copy at the fair, but an abridged paper version will be available for those who require one.

Volunteers and experts in the Arts in Education field will be stationed around the venue to assist attendees where needed. Attire is business casual and we encourage attendees to bring their resumes, business cards, etc. to give to potential employers.

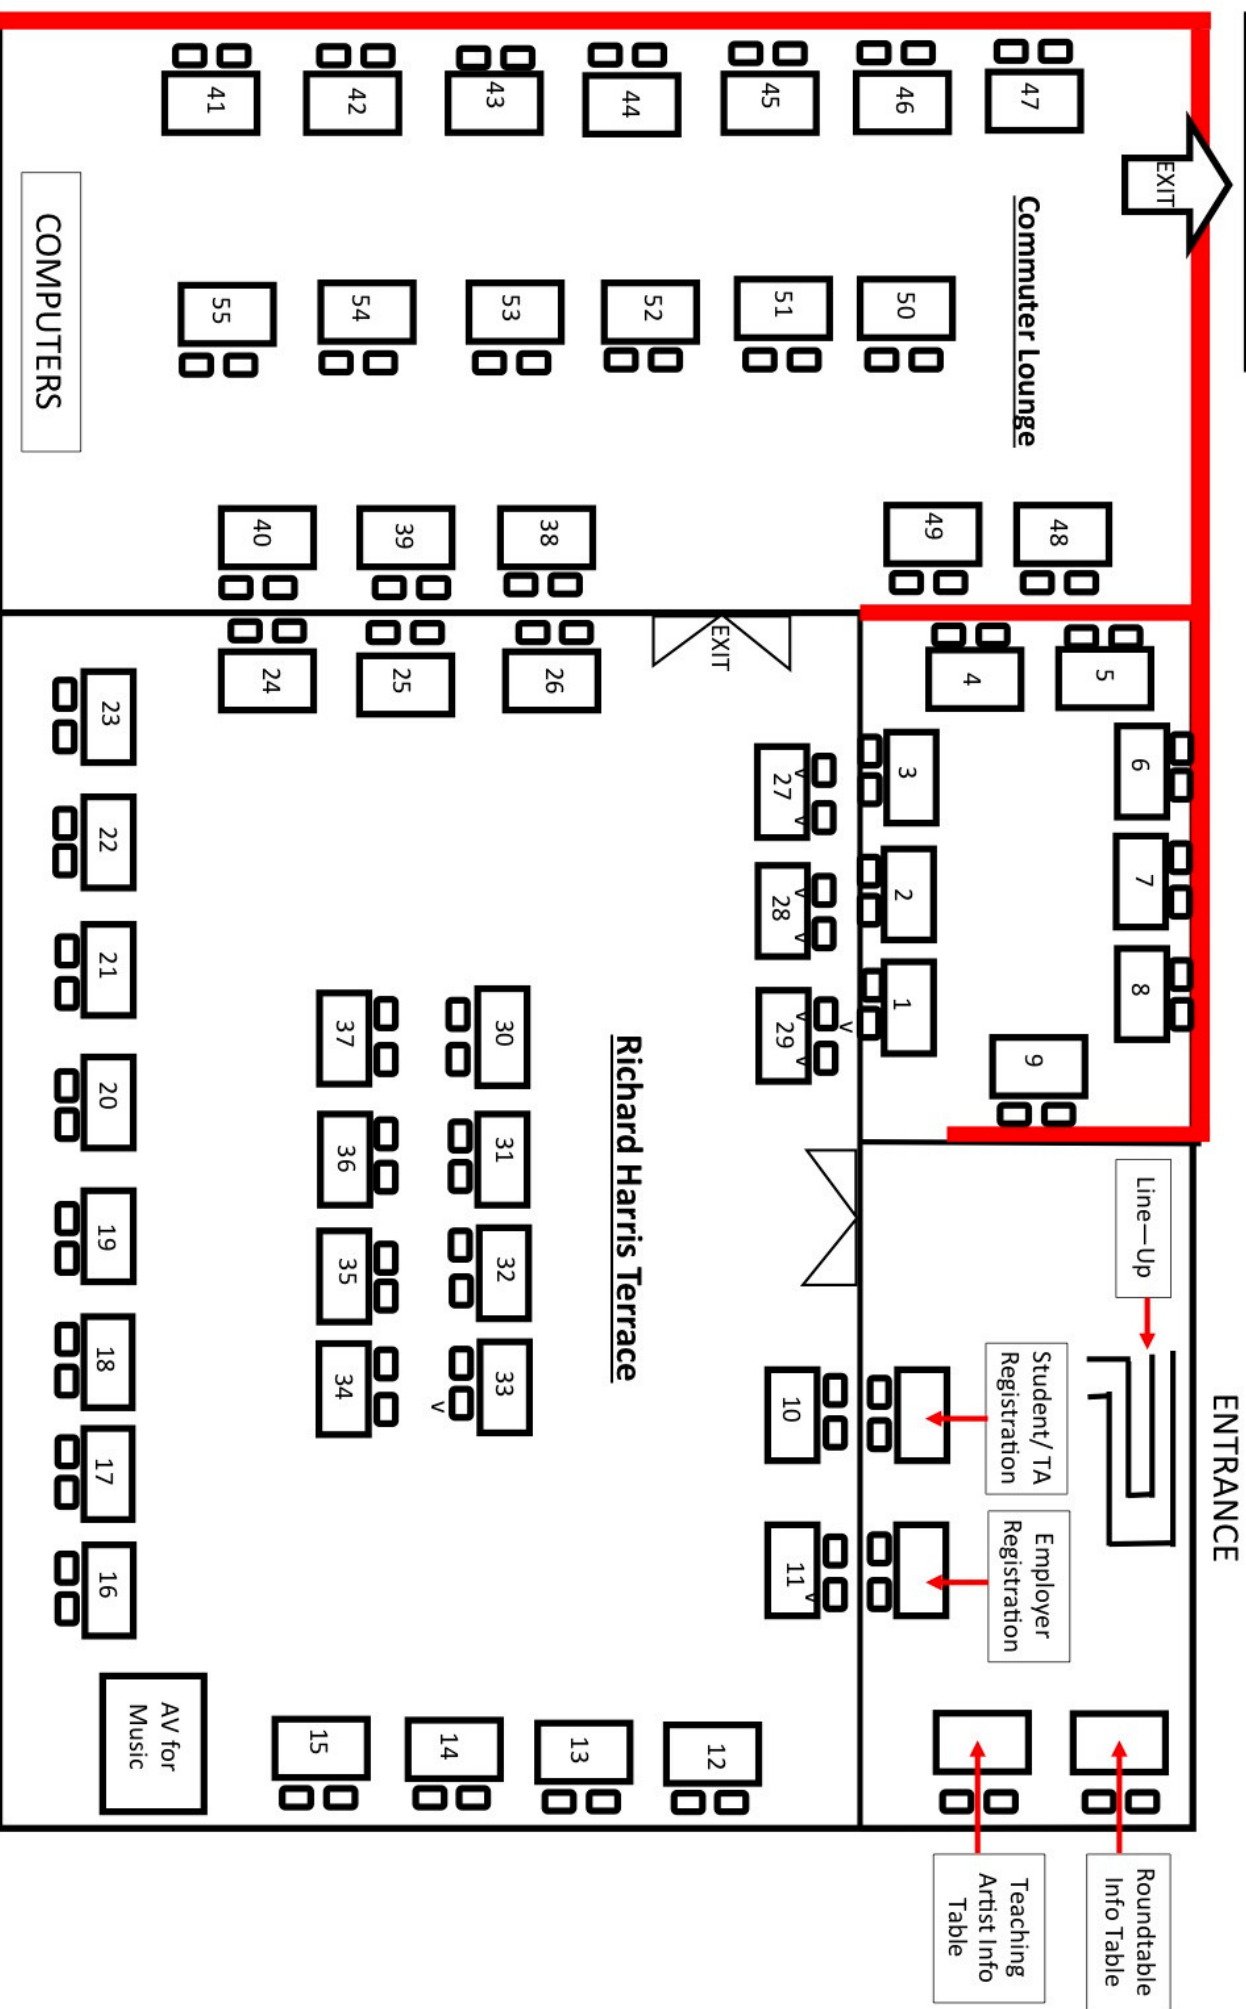

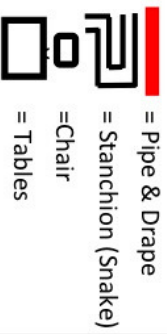

If you have any questions, concerns, or accessibility needs, please email:
