Noreen Mulvanerty:

Spotlight

Family Nurse Practitioner And Herbalist

Family Nurse Practitioner Noreen Mulvanerty, RN, MSN, CS, FNP, has opened an office at 437 Beach 129 Street in Belle Harbor. The practice combines medical consultation, general medicine for children and adults, herbal medicine as well as facial peels. Mulvanerty, with more than 12 years of experience in emergency medicine and four years of hematology and oncology, studied botanical medicine in modern clinical practice at Columbia University. She holds a postgraduate certificate in Chinese Medicine and AMMA Therapy.

The first product that Mulvanerty developed as an herbalist is Omyst, a healing herbal first aid spray, which, she says, has been tested on more than 2,000 patients and has been clinically proven to aid in the treatment of minor cuts, burns, scratches, rashes, insect bites, stings and sutures. Her practice can be reached at 718-474-1212 or through the website at: www.herbalintervention.com.

In addition to providing in-depth consultations, routine medical care and prescriptions, Mulvanerty's practice also offers herbal advice as well as a variety of holistic therapies, including acupuncture, herbology, massage and organic botanical facial peels.
