**Mounting Systems is proud to announce its UL 2703, Edition 1 Product Certification**

West Sacramento, CA – Mounting Systems is proud to announce the completion of its ETL certification for the popular pitched roof racking system, Alpha+. It is now ETL listed to UL 2703, Edition 1. It has surpassed the requirements for bonding and grounding as well as mechanical load for UL 2703. Alpha+ received a Class A fire resistance rating when using Type 1 and Type 2 listed photovoltaic modules for UL 1703.

“Mounting Systems’ on-roof racking solutions are constantly evolving to meet the market’s new system requirements,” said Holger Giebel, CEO of Mounting Systems, “Our products surpass customer expectations through high quality control and full testing, ensuring that our systems are both reliable and robust for on-roof applications.”

**About Mounting Systems:**

As a global company serving customers in over 50 countries, Mounting Systems is one of the leading international developers and producers of racking systems for photovoltaic and solar thermal facilities. With 20 years of expertise in the market, Mounting Systems continues to build on an 8GW history of excellence and product technological leadership with a continued focus on surpassing customer expectations. Mounting Systems is ISO 9001 certified with US and German offices that offer engineering, logistics, and manufacturing services.
