PRODUCT DATA SHEET

CORE GRIP 250

MAX GRIP

SAND NITRILE GLOVE

A lightweight 15-gauge glove combining a flexible nylon and spandex liner with a textured sand nitrile palm. The close fit, breathable back and high dexterity support secure, confident handling when extra grip is needed.

EN 388	DEXTERITY	LINER
4131X	LEVEL 5	15 GAUGE

PERFORMANCE ADVANTAGES

- **High abrasion resistance.** EN 388 Level 4 performance supports durability during repetitive handling.
- **Maximum sand nitrile grip.** Textured palm finish provides high-friction control for forceful handling and secure contact.
- **Confident dry handling.** The sand finish helps maintain grip when moving tools, components and materials.
- **Second-skin flexibility.** Fine 15-gauge nylon and spandex liner follows natural hand movement.
- **Breathable working comfort.** Uncoated back and secure knit wrist support airflow and a stable fit.

IDEAL APPLICATIONS

Assembly / Manufacturing / Warehousing / Maintenance
Packing / Automotive / Construction / General handling
