Professor Corns is a really great teacher. In addition to assigning the readings, she understands that they can be confusing and somewhat difficult so in class she breaks it down and explains it the best she can. She is always available to answer any questions and truly cares about her students. It seems that learning is very important to her for her students - and she is more than nice, understanding, and helpful. She is a great teacher in this great course.

THANK YOU!

Very energetic professor and extremely kind. The class was very enjoyable and I learned a lot about myself through the different arguments in philosophy

THANK YOU!

I love the way you teach the course and I'm glad you evaluate me not on my ideas but on how I reach my ideas. I don't consider myself a good thinker at all but I'm glad that in your class, I am able to understand why I think the things I think.

So thank you 😊

THANK YOU!

This was one of the most valuable courses I've taken in college thus far. It has challenged me to actually think, instead of memorizing, and has stimulated my intellect. You were a great teacher, and a very cool person (random thought). There is nothing you could have done to improve the course as it was practically perfect. I enjoyed thinking about each of the five topics and the readings were thought provoking as well. As I leave this course I must thank you for such a great class, this is the only real learning I have done and feel as if it is not a waste of my time. I hope you are hired full time once you finish your dissertation, which I would also like to read. I would praise you more but it appears time is limited and I must go, so good luck with your work!

THANK YOU!

Professor Corns was extremely helpful in understanding the course material. The information is difficult to grasp and she was great at explaining it. I loved the relaxed atmosphere of the class and she truly cared about our success in the class. Great experience.

THANK YOU!
