Animal Training Bibliography

Compiled By The Animal Training Committee
Of The American Association of Zoo Keepers, Inc.

Updated December 2007

One of the goals of AAZK's Animal Training Committee (ATC) is to provide members of the zoo and aquarium community with a comprehensive compilation of references on positive reinforcement training. This bibliography will be continually updated and will be formatted into a searchable database in the future. The references presented within this resource do not necessarily reflect the opinions the American Association of Zoo Keepers, Inc., the AAZK Board of Directors, the Animal Training Committee, and/or any other member of AAZK.

Any additions, suggestions, corrections, questions, or other comments regarding this resource are welcome and should be directed to:

Jonathan Miot
