פרסי סטודנטים
Student Prize Winners

2005
The Leon and Israel Reiskin Prize

Public Space at the Core of the Arab Village of Saknin

Lizia Bedrina

Supervisors: Amir Mann, Architect; Gabi Schwartz, Architect

Judges' opinion: Detailed, sensitive and clear planning of a complex physical system with the goal of renewing it through the development of public areas and functions. Attractive and organized planning methodology on the one hand, and planning achievements on the other. The project presents a nice balance between the innovation component and the preservation component.
