

Use Rid Odor Pro Application Tool with BG Interior Renewal products

September 13, 2011 || 11-330

Use the Rid Odor Pro Application Tool with BG Interior Renewal products: New Car Formula, Part No. 698, and Leather Formula, Part No. 699. Because our products hold 4 oz. versus Rid Odor's 2 oz., you will need to simply add 4" of 1/4" tubing to the Rid Odor Pro Application Tool, on the inside of bottle as seen below.

Rid Odor Pro Application Tool and Interior Renewal Products Assembly
