No simultaneous translation will be provided.

Beamer for electronic presentation (PowerPoint or similar tools) with a connected PC is available in the conference rooms.

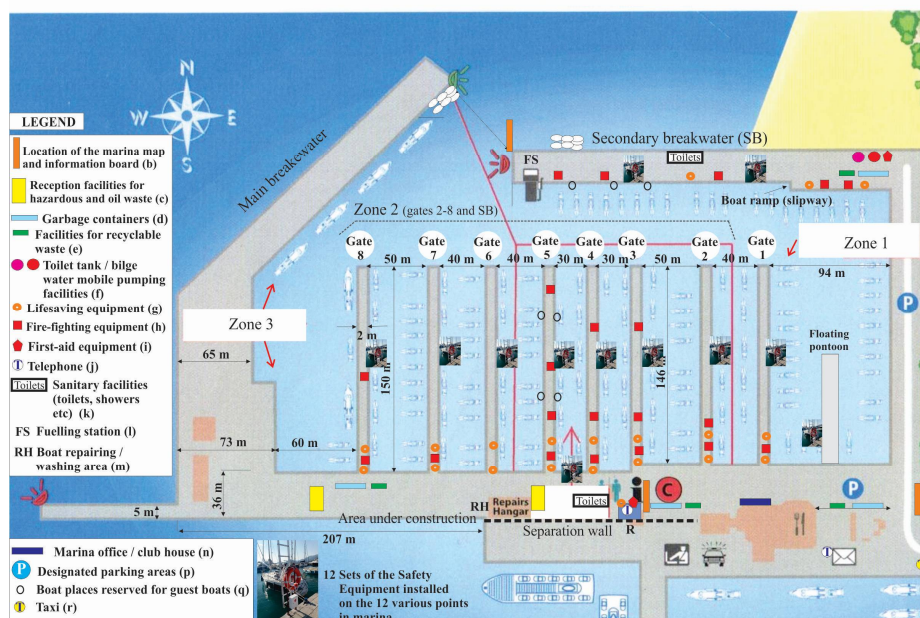

We suggest copying your files to our computer in the conference room before the session starts.

Project: APPLYING AND PROMOTING THE
CONCEPT OF SUSTAINABLE DEVELOPMENT
TO AD MARINA BAR – SUST-MARINA

Maritime Faculty, University of Montenegro

AD Marina Bar has been awarded the exclusive "Blue Flag" eco-label since 2017. Owned and run by the independent non-profit organisation Foundation for Environmental Education (FEE), the Blue Flag Programme works towards attaining sustainable development at beaches and marinas by having them meet strict criteria regarding their water quality, environmental education, information, safety, management and other services.

At the end of June 2017, the AD Marina Bar became the first marina in Montenegro to be certified with ISO 9001:2015 and ISO14001:2015. TÜV Rheinland awarded the certifications.

In November 2017, AD Marina Bar has been awarded with three (3) gold anchors, obtaining this rating at the Gold Anchor Award Scheme program of The Yacht Harbour Association (TYHA), after relevant evaluation.

It is managed and administered jointly by The Yacht Harbour Association (TYHA) and the Marina Industries Association (MIA).

It is our great pleasure to host the Second Part of the Special Session E – Maritime and Port Logistics of the International Conference MHCL 2017 in Bar (Montenegro), the well-recognized historical town and Montenegrin centre of port, transport, logistics and tourism. We are grateful to the authors of the papers for their valuable contributions and for preparing their papers and presentations in time.

Government of Montenegro project
implemented by the Ministry of
Science
and Ministry of Education
