

Hantsch Electric, Inc.

48 Hut Hill Road • Bridgewater, Connecticut 06752 • (860) 354-0148 • Fax: (860) 354-0634

To Whom It May Concern:

I am pleased to write on behalf of Brigitta Stone, and her fantastic company, Local Social Media, in effort to validate her work ethic and execution of her proposed advertisement projection for our company. Mrs. Stone has been working with Hantsch Electric Incorporated for close to a full year now and we have been nothing but fully satisfied.

Mrs. Stone had researched our company not only statistically but also on a personal basis. She came to us already familiar with our long-standing business history and complimented us on our enduring success. In our prior experiences with other advertisers there was always a condescending undertone when we would articulate our current advertising methods. Mrs. Stone was one of the first advertisement representatives to listen and customize options to fit our conservative methods instead of pushing us out of our comfort-zone and showering us with a lofty sales pitch.

Local Social Media has earned our loyalty, respect and trust throughout the year. Our exposure on social media has grown more than 100% and continues to reach more and more customers through their clever and inventive advertising techniques. Mrs. Stone's integrity and enthusiastic personality has consistently sustained its optimism over an extended period of time. This is one of the few companies that we look forward to sharing our stories, pictures, and testimonials with. She treats our company as well as she treats us personally.

The prices are very competitive and more than reasonable and it is always a pleasure sending her things from silly stories about our technicians, to new projects, to a balloon finding its way to our shop that was sent from a family, states away, as a memorial for their Father that had been a self-employed Electrician his whole life. Working with a company such as Local Social Media brings out the fun in advertising. We will continue placing our faith in Mrs. Stone's abilities and knowledge and recommend her to businesses of all types.

Sincerely,

Howard Hantsch

President

Hantsch Electric Incorporated
