

	Dubseed	Splice	Blend	Beatport
<b>Product Description:</b>	<p>Dubseed is a networking/distribution resource that allows you to discover and explore music down to its core.</p> <p>Why? "I really want to hear how it might sound."</p>	Splice is the cloud platform for music creation, collaboration, and sharing.	Blend was started by Alex Kolundzija and built in New York City at betaworks by music loving and producing technologists. On Blend, musicians and producers share in-progress music projects and connect with others to collaborate. Projects can be discovered, previewed, commented on, and more importantly, "pulled" in source format to add to, remix and learn from. Music fans can discover new music in an interactive format and even participate in the creative process.	<p>Founded in 2004, Beatport is the largest music store for DJs in the world. Beatport offers music in premium digital formats and provides unique music discovery tools created for and by DJs. Each week, Beatport's music collection is refreshed with hundreds of exclusive tracks by the world's top dance music artists. Beatport is privately held and headquartered in New York, Denver, USA and Berlin, Germany.</p> <p>Network is made up of:</p> <ul style="list-style-type: none"> <li>• Beatport Pro</li> <li>• Beatport Classic</li> <li>• Beatport Sounds</li> <li>• Beatport Mixes</li> <li>• Beatport Pro for Mac</li> <li>• Beatport Play</li> <li>• Beatport DJs</li> <li>• Sounds to Sample</li> <li>• Beatport News</li> <li>• Distribution by Baseware</li> </ul>
<b>How it makes money:</b>	Selling stem packages	Selling custom plugins?	Selling Project Files	Selling music. But also selling package of loops, samples and sounds. Not stems per se.
<b>DAWS / File format</b>	WAV	Ableton Live, Logic, FL Studios, GarageBand	Ableton Live, Maschine 1 & 2, Pro Tools, Logic, GarageBand, FL Studio, Reason, Stems	WAV, AIFF
