The CAC has a new visual arts support group!

The Central Texas Art League is a visual arts advocacy group that will provide much needed support to continuously enrich and shape the culture and the environment of our communities with activities and learning opportunities for visual artists of all levels.

The Central Texas Art League vision and mission; to serve as a support organization of the Cultural Activities Center as the central location for programs to develop new and innovative ways to bring central Texas residents and the arts together by inspiring exploration, involvement, and enjoyment in the arts.

The Central Texas Art League will meet every first Tuesday of the month in the Arts Room at the CAC
