

Online Certification Process Required for 2019 Medicare Training:
Medicare Advantage and Part D Certification
(External-SelfReg)

In order to market Medicare Advantage and Part D products, CMS requires that agents be certified annually. **The 2019 certification site will be accessible June 27th with a simple registration process.**

2019 Courses required for certification include:

- **AHIP Medicare Training, including Fraud, Waste & Abuse (FWA)**
- **Compliance training**
- **Product training**

The AHIP Medicare Training is one of the courses required to be allowed to market and sell our 2019 plans whether you were certified for Medicare Advantage or Part D plans for 2018 or are just getting certified now. AHIP also includes Fraud, Waste & Abuse courses as part of their Medicare Advantage and Part D certification program.

AHIP Re-certification: If you took and passed the AHIP certification for 2018, the system will recognize you when you register and you will be presented the AHIP re-certification course for 2019. The re-certification presents you with all 5 AHIP MA/Part D modules; however, you are only required to review parts 4 and 5. You are not required to review parts 1, 2 or 3. It is important to note that you will be tested on all 5 parts. The estimated time to complete the AHIP MA/Part D modules is approximately 4 hours. There is a 2 hour time limit on the AHIP MA/Part D final exam. Successful completion of the AHIP exam requires a score of 90% or better. You are allowed 3 attempts per registration to achieve a passing score on the final exam.

AHIP has already updated the site to the 2019 version of the certification and exam, and therefore no longer allows access to the 2018 version. Our Anthem certification training site which provides access to the certification discount has been updated to reflect this change as well. If you have not taken the 2018 certification and chose to do so now, you will receive credit for both 2018 and 2019 for the AHIP Medicare Training. This also applies to the Compliance and Product Training modules. If you have not taken the 2018 Compliance and Product Training and chose to do so now, you will receive credit for both 2018 and 2019 upon successful completion.

AHIP Fraud, Waste & Abuse (FWA): This additional segment of the 2019 AHIP training program provides information on Nondiscrimination, Fraud, Waste & Abuse and General Compliance. Successful completion of each topic requires a score of 70% or better. The AHIP FWA testing is separate from the AHIP Medicare Advantage and Part D exam.

2019 Compliance Training modules are available now on our Anthem certification training site. Modules include Foundation/Basics, Risk Prevention, Sales Event Reporting and Tools for Compliant Selling. The estimated time to complete a compliance module is approximately 30 minutes, however this may vary. The estimated time to complete the compliance certification exam is 10-20 minutes per module. Required passing scores vary by module and will be noted in the course instructions.

2019 Product Training modules are accessible upon completion of the Compliance Training modules. You are required to complete the modules for the products you intend to sell. **If you intend to sell MAPD plans, the Part D course must be completed along with the HMO and/or PPO training. For SNP plans, you must take the SNP and Part D modules, as well as the HMO or PPO module, depending on the type of SNP plan available in your area.** The estimated time to complete a product module is approximately 30 minutes, however this may vary. The estimated time to complete the product certification exam is 10-20 minutes per product module. All product modules require a score of 90% or better for certification.

To access the 2019 certification site, please see the instructions on Page 2. All new agents will need to log in as a first-time visitor and create a profile before starting the certification training. Existing agents can log in with their username and password from last year. There are links to assist you if you have forgotten either of them.
