Marta POPOVA,
European Projects Manager

Presentation of SPAQuE SA
1. SPAQuE – Fields of excellence – 1/2

- Improvement of the knowledge of the polluted sites (landfills and brownfields)
- Historical studies
- Soil investigation: orientation, characterisation, volumetric analysis
- Feasibility studies (technical, economic, urban development)
- Groundwater management
1. SPAQuE – Fields of excellence – 2/2

- Risk analysis (existant and potential)
- Technical specifications for the rehabilitation works
- Supervision of the rehabilitation works
- Valorisation and urban development of the rehabilitated sites
- Green energy projects on the rehabilitated sites
2. SPAQuE - Expert in the rehabilitation of landfills

- Inventory of landfills in Wallonia
- Tool for classification of landfills – AUDITSITE
- The plan authorised landfill site for Wallonia
- Rehabilitation of landfills: sampling, feasibility studies, terms of references, works supervision
  Landfills: Mellery, Anton, Cronfestu, Florzé, Hensies, Les Isnes, etc.
- Environmental monitoring – 80 landfills
- Management and maintenance of rehabilitated landfills – biogas and leachates management
3. European projects experience

Horizon 2020:

- Public procurement for soil decontamination innovation strategies (It, Sp, Be, Po)

- Groundwater management (It, Sp, Be, D)

Interreg NWE:

- GRENGO

- RAWFILL
4. Role of SPAQuE in RAWFILL project - 1/3

Lead partner
4. Role of SPAQuE in RAWFILL project - 2/3

Ir Claudia NECULAU
International Business Developper Sr.

Civil engineer with 15 years of experience in landfills and brownfields rehabilitation

Marta POPOVA
European Projects Manager

8 years of experience in project coordination
4. Role of SPAQuE in RAWFILL project – 3/3

**WP Management – WP Leader**
- WP Communication
- WP Long term effects
- WP EIF
- WP DST

**WP Demonstration of LFM resource potential**
- WP Leader

WP I 1 and WP I 2
