

Inomize at SNUG Silicon Valley DCE March 23th 2015: demonstrating a rapid new way to bring your ideas into Silicon

Netanya, Israel, March 17th, 2015 – [Inomize](#), a leading Israeli design services company, will exhibit at the Synopsys® SNUG® Designer Community Expo (DCE) - part of the Synopsys Users Group (SNUG) Silicon Valley event next week. Come and see the fastest way to get from a concept to silicon by utilizing Inomize design silicon methodology using the Synopsys Galaxy Design Platform. Cutting edge demos from select customers will be presented at the Inomize booth in the IC Design Community, such as: touch screen controller and panel, image capturing and computer vision, high bandwidth, low power low speed modems, RF and more.

Inomize specializes in delivering complete complex ASICs, starting at the definition stage, through architecture, algorithm, digital analog & RF design, synthesis and implementation. Inomize has comprehensive expertise in diversified domains such as CPU sub-system, modems, gesture recognition & video, wireless solution with analog & RF designs.

About Inomize

Inomize is a professional Research & Development firm specializing in the design and delivery of hardware solutions. Inomize offers a wide range of services tailored to meet your project needs and product constraints in terms of cost, performance and power consumption.

Inomize successfully delivers ambitious projects on time and on budget. Inomize get the maximum out of the available technology and, when necessary, push it to the limits using the latest advancements to meet customer's project needs. With years of experience and a proactive project management approach, Inomize reduces development time and minimize risks of complex hardware design projects.

Established in 2007, Inomize is a fast-growing company and one of the largest ASIC design firm in Israel. Among Inomize's customers are large international corporations and startup companies from Israel, Europe and North America. Find out more about Inomize at www.inomize.com

About SNUG Designer Community Expo

The SNUG Designer Community Expo (DCE) is a unique networking event featuring Synopsys and its ecosystem partners from across the electronics industry. At SNUG DCE, Synopsys users can interact with exhibitors and see the latest design enablement solutions spanning seven designer communities: Compute and Design Infrastructure, Custom Design and AMS Verification, FPGA, IC Design, IC Verification, IP, and Prototyping & System Design. DCE is open to all registered attendees of SNUG Silicon Valley.

SNUG Silicon Valley Designer Community Expo -

Monday, Mar. 23, 2014, 4-8 p.m.

Santa Clara Convention Center

5001 Great America Parkway

Santa Clara, Calif. 95054
