To Whom It May Concern:

It is my distinct pleasure to provide a letter of recommendation for BC Construction. I have had the opportunity to work with Frank Haase, President of BC Construction and Chris Haase, Project Manager at BC Construction, on multiple projects in my Architectural Career and I highly recommend their services in the realm of Commercial Construction. They are the best at what they do. From helping an owner establish budgets to putting together a quality team of sub-contractors and managing them, to placing the finishing touches on a project. They bring knowledge, experience, integrity and a proven track record to any construction project. Their willingness to help achieve the goals of their clients is very comforting.

As an Architect I feel very comfortable when BC Construction is involved in my projects. I know that my design intent will be honored, the project will be built per contract documents and that all work will be code compliant. They are honorable people and very easy to work with. Their knowledge and expertise is exemplary and their ability to get things done is unseen. When they say a space will be done within a certain timeframe- it will be done.

I have nothing but the best to say about BC Construction. They are truly the Commercial Contractor that you would want on your side and they know how to get the work done.

If you have any questions, please don't hesitate to contact me.

Sincerely,

Edin Coralic,

Principal and Registered Architect (Missouri and Illinois)
