

December GRIN
Meeting

How to use Amazon to test and find product ideas

Dig deep into the world's biggest and most successful online retail store Amazon. Understand how Amazon's marketplace can help you prove product concept, and find unlimited product ideas that are proven to make money.

Since 2006, Amazon has launched FBA "Fulfilled by Amazon". Which allowed third-party sellers to ship goods into fulfillment warehouses, to be cataloged and sold alongside millions of other online products.

Over a few short years, the success of Amazon Prime has turned small private companies into six or seven figure businesses. In December's meeting, see what tools Amazon sellers use to research and test product concept all without breaking the bank. The best part is finding out how much these products are earning in sales and gauge profitability. We'll be giving away tons of products ideas so please make sure to join us
