Stephanie design

Multi- award winning industrial design studio offers a range of artisanal lighting solutions for residential and commercial applications, as well as bespoke design services in home decoration and design, lighting and furniture.

Using a combination of colour, form and texture, we love the play on unique materials to make the ordinary special. We apply traditional craftsmanship with accents of underlying cultural influences into our work.

Our signature is personal and hand-crafted, as opposed to a mass-manufactured feel to finished products; as portrayed through our product range.

Here at Stephanie Ng Design, we are committed to versatility and a design aesthetic that lasts and endures.

SCOOP
SERIES

SCOOP

A simplistic but elegant form with clean lines around its globe, reminiscent of everyone's favourite ice cream cone.

The top of the light is crafted from American Oak, and we love the seamless transition from the natural wood grain into the sleek aluminium body.

It is one of our most popular and versatile pendant lights from Stephanie Ng Design.

American Oak in Natural finish with variation of Ring (Black / Orange / Silver) & Leather (White / Black / Maroon / Grey)

ART SERIES

Our Scoop Collection becomes adorned with stunning new graphics by use of new printing technologies in the new Art Series

Hydrographics technology uses specialised films printed with a range of various abstract patterns to transfer onto and decorate complex three-dimensional surfaces.

The process involves a specialized film that floats on the water's surface and once dipping has begun, the surface tension of the water will allow the pattern to curve around any complex shape and transfer onto that object. Here are four varied styles that will accentuate your interiors with flair and individuality.
