

Middlesex London Food Policy Council

Motion: Endorsement of Poverty Reduction Grant Application

Approved: June 28, 2017

The Middlesex London Food Policy Council supports the London Child and Youth Network strategy for a community mobile fresh food market, by supporting the Local Poverty Reduction Fund application. This ensures that neighbourhoods across London have equitable access to fresh nutritious food, which is affordable and culturally appropriate.

The Middlesex London Food Policy Council sees this effort as a strategic way to **ensure increased fresh food access, increased food literacy skills; and enhanced relationship building around community food security in London.** This project has the potential to serve as a model for other jurisdictions across Middlesex, partnering Indigenous Nations and Ontario.
