

# Sani-Hani Toilet Seat Lifter

## Overview

With the patented Sani-Hani Toilet Seat Lifter, you'll never need to touch a toilet seat again! Created from antimicrobial materials, the Sani-Hani offers a healthy and sanitary alternative to prevent the spread of volatile microbes throughout your facility. From customers and visitors to employees and custodial staffs, with the Sani-Hani, everyone wins!

**Proven to encourage better and healthier hygiene habits**

## Design

- Ergonomic design allows for easy lifting and lowering of seat.
- Angled away from the seat not interfering with a seated position.
- 24-degree downward angle helps to prevent bodily fluids from splashing on to it and puddling from urine hitting the toilet seat.

## Adhesive

- Industrial-strength adhesive
- 3mm thick
- Withstands minimum 10 lbs+ PSI downward pressure

## Plastic

- High-gloss White
- ABS (Acrylonitrile butadiene styrene) thermoplastic polymer

## Antimicrobial Technology

- Immediately begins to inhibit/kills the growth of any volatile microbes that come in contact with the Sani-Hani.
- Industrial antimicrobial agent added during manufacturing process infusing product with lasting protection
