

Workplace by Facebook Roadmap Engagement

Are your employees struggling to communicate? Are they working in silos? Is email just not cutting it anymore? Do your employees have the proper tools to collaborate with each other?

Don't know how to answer any of these questions? It may be time to consider implementing a social enterprise network in your organization! Workplace by Facebook can help you bring your team together (regardless of their location) and promote collaboration and innovation in your organization.

WHAT IS WORKPLACE ROADMAP ENGAGEMENT?

ProServeIT's 1-day Workplace Roadmap Engagement will give you an in-depth overview of the benefits of using Workplace in your organization. We'll review what's most important to your business, understand your current organizational structure and what current digital tools you have in place, then help you build your roadmap to success.

DELIVERABLES & ACTIVITIES

From ProServeIT's Roadmap Engagement, you will receive:

- An introductory session on Workplace for your Leadership and Management teams.
- An overview of your current organizational structure.
- An overview of your current digital workplace tools.
- A full roadmap for your Workplace project.
- Development of a business case for Workplace.
- Suggestions for designing your Workplace platform.
- A full cost analysis of the project.
