

# D+CM Exposition

Design + Construction Management Exposition  
2018 Spring Semester, February 26 – March 2, 2018

The purpose of this series of exhibits is to acquaint the students of Tuskegee University, School of Architecture and Construction Science and invited guests with some of the newer Architecture and Construction industry developments. A further objective is to stimulate the activities of the School of Architecture and Construction and present its program to the public.
