

50% OFF GAIT SCANS!

Check the health of your feet **for only \$37.50**

PLUS if you order orthotics on the same day we will waive the GaitScan fee.

Order 2 pairs of orthotics and receive 50% OFF the second pair.

GaitScan is state-of-the-art technology that analyses the biomechanics of your feet and identifies abnormalities that, if left untreated, can develop into painful conditions over time.

You should consider a foot analysis/GaitScan if you:

- Play sports, especially those that involve running
- Spend a large portion of the day on your feet
- Have a medical condition that affects the way you walk
- Notice uneven shoe wear
- Trip frequently when walking
- Experience reoccurring pain in your lower limbs or lower back, whether it be muscular or skeletal
- Walk with your toes pointing inwards or outwards
- Have one leg shorter than the other
