

## Ice Cream Pie

1. Warm your favorite flavor of Sweet & Saucy caramel or chocolate sauce for the bottom layer of your pie.
2. Pour a thin layer into a pie crust and freeze overnight.
3. Next, stir up any flavor ice cream until it is in a soft-serve kind of state and spread on the pie crust.
4. Freeze again and repeat.
5. Decorate on top with a different flavor.
6. Try different pie crusts, mix in cookies, candies or fruit to your ice cream to change it up!
