

**Background Information:**

**Consent Calendar:**

**2. Approval of the October 23, 2019 Meeting Minutes**

**Regular Agenda:**

**3. Support for the Stockton Road Bus Stop Project 65% design**

The Regional Transportation Plan identifies the Stockton Road Bus Stop as a high priority project. The TCTC and TCTA have programmed funding to the project as illustrated in the attached funding documents.

The downtown bus stop project near the S. Washington Street and Stockton Road intersection has undergone extensive design changes since it's inception. We have requested Rachelle Kellogg present the project to the TCTA for consideration of supporting the project's current design.

**Attachments:**

*City breakdown of Stockton Road/Washington Street Corridor Project and current design of the Stockton Road bus stop design.*

**Recommended Action:**

*Support the 65% design of the Stockton Road bus stop project.*
