## Verdict

A cute design for Easter, these Bunny Crumpets proved hard to resist and not just for those with kids. In danger of being dismissed as 'gimmicky' but prevented by the quality of the Crumpets, which had a particularly 'light' and 'fluffy' interior. Generally thought to be a reasonable price premium compared to a pack of round crumpets and within the reach of most household budgets: a 'fun' treat to liven up the holiday breakfast or tea table.

	★★★★★	32%	Fluffy and Moreish. My grandkids would love these Great idea. Look lovely. Taste good. Fluffy texture. Really like the design due to it being Easter, great idea for the kids, crumpets light and fluffy... great taste. Great texture but I don't think I'd buy them over circular crumpets. The only thing that's different is the shape.
	★★★★☆	40%	Lovely light, and fresh tasting. Great texture. Fab for kids at Easter Definitely have the 'ahh' factor. Children will love these.
	★★★☆☆	26%	Fun for kids. Not a bad product but gimmicky and expensive Average taste and texture and expensive for what it is
	★★☆☆☆	2%	Great for kids but personally not overly keen!
