A full info sheet will be sent out the first week of Oct. 2018 with round count, range guide, etc.

Sign in will start at 0700. Participants will sign the release form and understanding of the range rules. You DON'T have to get there at 0700. I heard all kinds of grief about HAVING to be there early. So, again, you DON'T have to get there at 0700. However, IF you can't get down the road, signed in, and in to your Tacti-coolest for the start of the safety brief you will be mocked, docked and rocked. I don't know what that last one entails but the first two will be horrifying.

All parties will attend the Safety Brief prior to the start of each day of the match Oct. 13th and 14th, held at approximately 0800. Weather dependent, we intend to start the match at 0830.
